

Hospital Ownership

OrthoNebraska is a proudly physician-owned hospital. There is evidence to suggest that physician owned hospitals are more efficient, deliver higher quality care and are patient-centric. For example, physician owned hospitals comprise just 5 percent of hospitals nationwide, but 36 percent of 5-Star hospitals as ranked by the Centers for Medicare and Medicaid Services' Overall Hospital Quality Star Rating program.

OrthoNebraska Hospital (Nebraska Orthopaedic Hospital, LLC) meets the definition of a "physician-owned hospital" under 42 CFR 489.3. The hospital is owned in part by the following physicians (as of Jan. 1, 2022).
